FOREWORD

In this ever-changing world, statistical data has become increasingly important and a tool that every one, from the public entities, the private sector and the citizens rely in their daily activities.

The Black Sea Economic Cooperation (BSEC) has renewed the publication of the Compilation of Economic and Social Indicators for the BSEC Countries. It was prepared thanks to the commitment of the BSEC Coordination Center on Exchange of Statistic Data and Economic Cooperation that sits within the Turkish Statistical Institute (TurkStat) and of the national statistical institutes of all member states.

As the Permanent International Secretariat (PERMIS), we will spare no efforts that together with the Coordination Center and all member states to update regularly and to increase the indicators represented.

BSEC

Permanent International Secretariat

THANKS

The Black Sea Economic Cooperation Organization (BSEC) was established in 1992 with the initiatives of the Republic of Türkiye. BSEC has 13 members: Albania, Armenia, Azerbaijan, Bulgaria, Greece, Georgia, Moldova, North Macedonia, Romania, Russian Federation, Serbia, Türkiye and Ukraine. Türkiye held the Chairmanship-in-Office of the BSEC between 1 July 2023 and 1 January 2024.

During its Chairmanship-in Office our country's priority has been to bring a new momentum to the cooperation in BSEC through joint steps with the member states under the guidance of the Organization's founding principles and objectives.

In this context, the "BSEC Statistical Data and Economic Information Exchange Coordination Center", which was established in 1992 under the responsibility of the Turkish Statistical Institute (TurkStat), has been reactivated. The annual publication titled "Social and Economic Indicators of the BSEC Countries", was compiled and published by this Center until November 2003, but could not be prepared due to the difficulties encountered in compiling data from the countries in the following years. Within the scope of the reactivation of the Center, the 2014 survey was revised by TurkStat in order to collect data from member countries and to prepare this publication.

I would like to express my pleasure that the republication of this publication on the economic and social indicators of the BSEC member countries was carried out during the Chairmanship of Türkiye.

I hope this publication will be useful for decision makers, researchers and other users, thank to those who contributed to this publication, which enabled the spirit of cooperation in the BSEC member countries to be re-established after a long period of twenty years.

Dr. Erhan ÇETİNKAYA
President of TurkStat

(1) The indicators presented refer to the manufacturing industry (NACE Rev.2 section C). The information refers to active business entities (enterprises-legal entities and individual entrepreneurs).

(2) 500 and more.

(3) Due to the confidentiality data are aggregated in the previous size class from 1000-4999.

(4) 250 and more.

(5) 1000 and more.

(6) The information is provided on business entities (enterprises-legal entities and individual entrepreneurs) by type of economic activity manufacturing industry (section C) according to the National Classification of Economic Activities DK 009:2010, which is harmonized with the statistical classification of economic activities in the European Community (NACE Rev.2).

The information is provided on indicators of structural business statistics, the calculation methodology of which is provided for by Regulation (EU) 2020/1197 (<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A32020R1197>).

Number of establishments = Number of active enterprises (units);

Annual average of number of employees = Number of employees (persons);

Average number of persons engaged = Number of persons employed (Number of employees and self-employed persons) (persons);

In accordance with the requirements of Regulation (EU) 2020/1197, the this indicators are detailed by the number of persons employed in the following groupings: 0-9 persons, 10-19 persons, 20-49 persons, 50-249 persons, 250 and more persons.

(7) 50 and more.

c Confidential data.

(1) Upper secondary school is corresponds to the middle secondary school (including 5-9 grades).

(2) Included schools where only ISCED1, schools ISCED 1-2 and schools ISCED 1-3 is taught.

(3) Included schools where ISCED 1-2 and schools ISCED 1-3 is taught.

(4) Included schools where ISCED 1-3 is taught.

(5) Included ISCED 5-8.

(6) The data refers only to public institutions.

(7) Data refers to 1-9 grades.

(8) Data refers to 1-12 grades.

(9) 7 schools are basic-upper.

(10) Units in pre-university education are independent units and in tertiary education, the universities are counted.

(11) For pre-university education, data refer to graduates of the last study year of the education level who do not hold a diploma; for tertiary education, data refer to graduates who have passed the graduation examination and obtained a Bachelor's degree, Master's degree, PhD Degree diploma.

(12) Primary education units are included, as well as special education units (primary and lower secondary).

(13) The number of teaching staff in organizations engaged in educational activities in pre-school educational programs, supervision and care of children.

(14) The number of pupils in organizations engaged in educational activities in pre-school educational programs, supervision and care of children.

(15) The total number of schools in Russia is not divided into separate primary schools, lower secondary school and upper secondary school.

(16) The number of students in primary school (grades 1-4).

(17) The total number of teachers of secondary school is not divided into lower secondary school and upper secondary school.

(18) The number of graduates of the 4th grade.

(19) The number of students in grades 5-9.

(20) The number of students in grades 10-11 (12).

(21) The number of students studying on the terms of general admission without taking into account the number of students from among foreign citizens and stateless persons, including compatriots living abroad, studying in accordance with the quota established by the Government of the Russian Federation for the education of foreign citizens and stateless persons in the Russian Federation.

(22) The total number of vocational upper secondary schools also includes 51 mixed schools (general and vocational/technical).

(23) Number of children who are raised in pre-school educational institutions.

(24) Number of pupils who are trained in 1-4 classes of general secondary educational institutions.

(25) Number of pupils who are trained in 5-9 classes of general secondary educational institutions.

(26) Number of pupils who are trained in 10-12 classes of general secondary educational institutions.

(27) Including part-timers.

(28) Total number of pupils in general secondary educational institutions.

(1) The last group refers to household size of 6 and above.

(2) The last group refers to household size of 5 and above.

14. ENVIRONMENT

Title	Unit	North												Ukraine
		Albania	Armenia	Azerbaijan	Bulgaria	Georgia	Greece	Moldova	Macedonia	Romania	Russia	Serbia	Türkiye	
14.1 Water abstraction per capita in municipalities	(liters/capita...day)	169,5	492,7 ⁽²⁾	...	...	230,9 ⁽⁵⁾	...	300 ⁽⁶⁾	...	...	117,5 ⁽⁸⁾	140 ⁽⁹⁾	229 ⁽¹⁾	...
14.2 Wastewater discharge per capita in municipalities	(liters/capita...day)	158,8	114,1	...	...	...	...	206,5	...	...	...	147 ⁽¹⁰⁾	197 ⁽¹⁾	...
14.3 Municipal waste generated per capita	(kg/capita...year)	351,0	146,2	267,1	475 ⁽¹⁾	302,2	...	...	503	...	...	467	380 ⁽¹⁾	...
14.4 CO ₂ emission per capita	(tonnes CO ₂ eq./capita)	3,4 ⁽¹⁾	...	3.3 ⁽¹⁾	9,1 ⁽¹⁾	...	5,0	4,7 ⁽¹⁾⁽⁷⁾	...	3,9 ⁽¹⁾	5,5 ⁽¹⁾	...	7,0	...
14.5 The share of total environmental expenditure in GDP	(%)	...	0,2 ⁽³⁾	0,6	1,9 ⁽⁴⁾	...	...	...	0,99	1,2	0,6	0,9	0,85	...

(1) Data refers to 2022.

(2) Including losses during distribution.

(3) Data refers to state budget expenditures on environment protection and business current environment expenditures.

(4) Data refers to 2021.

(5) Data reflects per capita water use (litres per capita per day), based on the amount of water supplied to households by the water supply industry.

(6) The water indicators are based on data from municipalities and cities, and the average population excluding Transnistria.

(7) For the calculation of the CO₂ indicator, total emissions were taken and divided by the average population plus the population of Transnistria.

(8) The information is given based on the indicator "Average daily water supply per inhabitant," calculated as the ratio of the amount of water supply to the population and budget-financed organizations to the average annual resident population.

(9) Net specific household consumption.

(10) Specific household water discharges.

15. ENERGY

		North											
Title	Albania	Armenia	Azerbaijan	Bulgaria	Georgia	Greece	Moldova	Macedonia	Romania	Russia	Serbia	Türkiye	Ukraine
15.1 Electricity generation													
Total (GWh)	8 796	8 806	29 306	40 256 ⁽¹⁾	14 396	49 917 ⁽¹⁾	1 169	6 976	57 981	1 181 000	40 028 ⁽¹⁾	331 149	...
15.1.1 Shares of electricity generation by energy resources (%)													
Coal	...	...	...	29,2 ⁽²⁾	...	9,2	...	39,6	13,9	15,9	58,9 ⁽⁴⁾	36,2	...
Liquid fuels	...	...	0,4	0,7	...	9,4	25,8	7,5	0,0	0,8	0,1	0,1	...
Natural gas	...	42,2	92,4	4,8	23,9	32,0	36,0	21,3	15,8	46,8	4,9	21,0	...
Hydro	1,0	18,7	6,0	7,8	75,5	8,1	5,9	23,3	32,2	17,1	32,7	19,3	...

(1) Electricity generation is equal to gross electricity production.

(2) Coal includes data from solid fossil fuels and oil shale.

(3) Renewable energy and wastes includes data from wind, solar photovoltaic, solid biofuels and biogases.

(4) Data includes production from solid fossil fuels and blast furnace gas.

(5) Includes data from wind, solar photovoltaic, industrial and municipal waste and bioenergy (solid biofuels and biogas)
